Summary

Aspiring backend developer with a Computer Engineering background and hands-on experience in Node.js, Express, and MongoDB, focused on building reliable APIs and backend systems.

Education

Bachelors of Computer Engineering Pokhara University, Pokhara	2019–2024
School Leaving Certificate SOS Hermann Gmeiner School Gandaki, Pokhara	2017–2019

Coursework

- Data Structures and Algorithms – Database Management Systems – Advanced Web Technology
- Computer Networks – Software Engineering – Web Development

Projects

Chat Application

- Built a real-time chat application using Node.js, Express, Socket.IO, React, and Tailwind CSS.
- Implemented JWT-based authentication and integrated Cloudinary for image storage.
- Ensured correct handling of user sessions and message delivery.

Nutrition Tracker

- Developed a full-stack nutrition tracker using Node.js, Express, and MongoDB.
- Integrated Nutritionix API for real-time nutritional data.
- Verified API responses and ensured accurate storage and retrieval of user data.

foodBUDDY

- Built a dynamic food delivery platform using the MERN stack.
- Designed backend APIs for meal search, orders, and user profiles.
- Handled input validation and error scenarios for robustness.

JavaScript Games

- Implemented Chess and Hangman games in JavaScript.
- Focused on correct game logic and edge-case handling.

Technical Skills

Languages: JavaScript, TypeScript (basic), HTML, CSS

Backend: Node.js, Express.js, MongoDB, PostgreSQL

Frontend (basic): React.js, Tailwind CSS

Tools: Git, GitHub, Postman, VS Code

Other: RESTful API design, software quality awareness, data correctness
