## Summary

Backend-focused developer with a Computer Engineering background, with hands-on experience building and maintaining RESTful APIs and data-driven applications. Interested in writing clean, reliable code and designing backend systems that are secure, scalable, and easy to maintain.

## Education

**Bachelors of Computer Engineering**                                    2019–2024
Pokhara University, Pokhara

**School Leaving Certificate**                                           2017–2019
SOS Hermann Gmeiner School Gandaki, Pokhara

## Coursework

– Data Structures and Algorithms – Database Management Systems – Advanced Web Technology

– Computer Networks – Software Engineering – Web Development

## Projects

### Chat App ⊙

– Developed a real-time chat application using the MERN stack, Socket.IO, and Tailwind CSS.
– Implemented JWT-based authentication and integrated Cloudinary for image storage.

### Nutrition Tracker ⊙

– Developed a full-stack nutrition tracker using Node.js, Express, MongoDB, and JWT .
– Integrated Nutritionix API for real-time nutritional data.

### foodBUDDY ⊙

– Built a dynamic food delivery web application using the MERN stack.
– Implemented meal search and order functionality with food catalogs, orders, and profiles in backend.

### Some JS games

– Chess game using chess.js
– Hangman game

## Technical Skills

**Languages:** JavaScript, TypeScript (basic), HTML, CSS

**Backend Development:** Node.js, Express.js

**Databases:** MongoDB, PostgreSQL

**Frontend (basic):** React.js, Tailwind CSS

**Tools:** Git, GitHub, Postman, VS Code
